

# Scaling Cascades in Complex Systems

# SCCS 2017

CRC 1114

**March 27-29, 2017 - Freie Universität Berlin**

## Keynotes by:

Prof. Dr. Carsten Eden

Prof. Dr. Gary Froyland

Prof. Dr. Taras Gerya

Prof. Dr.-Ing. Rupert Klein

Prof. Dr. Petros Koumoutsakos

Prof. Dr. Mária Lukáčová-Medvidová

Prof. Dr. Mark Peletier

Prof. Dr. Robert Scheichl

Prof. Dr. Frank-Josef Ulm

Universität Hamburg

University of New South Wales

ETH Zürich

Freie Universität Berlin

ETH Zürich

Johannes Gutenberg-Universität Mainz

Eindhoven University of Technology

University of Bath

Massachusetts Institute of Technology

## Mini-Symposia on:

Multiscale Methods for PDEs: Methodology and Applications

Stochastic Modeling Approaches for Turbulent Flows

Open Systems

Balanced Atmospheric Data Assimilation

Information-theoretical Methods for Complex Systems

Deformation Accumulation in Seismic Faults and Networks

Organization, Shape, and Dynamics of Biological Membranes

Practical Approximations for Monte Carlo Simulations of Complex Systems

Multi-scale Reaction Kinetics

Coarse Graining in Molecular Systems

Molecular Kinetics and Kinetic Models from MD simulations

Stochastic Parametrizations for Convective Processes

## Organizers:

Prof. Dr.-Ing. Rupert Klein,

Prof. Dr. Ralf Kornhuber,

Prof. Dr. Christof Schütte
